THE BEAVERS' ROUND TOUR

The rowing tour starts from the Épervière harbour, the first harbour in inner waters in France, which is worth a visit on its own. The route enables to experience very contrasting navigation conditions: bucolic and peaceful on the old Rhône River, more animated and sometimes a bit windy (the so-called "mistral", a northerly wind) on the navigable part. But the efforts are rewarded by a festive part which has made the tour very famous for more than 20 years.
